

# Welcome Meeting – Doctoral School MIIS

29th November 2024

Normandie Université

## Rôles:

- ▶ administrative management: grants, defence...
- ▶ monitoring the PhDs: conditions, relations with your supervisor...
- ▶ ... but not science: your supervisor's/your lab's rôle!
- ▶ organising events
- ▶ organising discipline-related training programmes
- ▶ help you to prepare your future

## At Normandie Université:

- ▶ 8 doctoral schools
- ▶ all common to Caen, Rouen, Le Havre
- ▶ working together in the 'Collège des Écoles Doctorales' (CED)

‘Mathematics, Information, System Engineering’ (Mathématiques, Information, Ingénierie des Systèmes):

- ▶ pure and applied mathematics
- ▶ computer science, signal processing
- ▶ control theory
- ▶ electronics
- ▶ mechanics

9 labs:

- ▶ Caen: GREYC, LIS, LMNO
- ▶ Rouen + Le Havre: LITIS
- ▶ Rouen: GR<sup>2</sup>IF, LMI, LMRS, IRSEEM
- ▶ Le Havre: LMAH

~ 200 PhD students, ~ 170 researchers with habilitation

Organisation and Contacts

Specific Processes

Problems

Final Remarks

## Organisation and Contacts

Main Steps

Specific Processes

Problems

Final Remarks

- ▶ A Doctoral School of Normandie Université
- ▶ Ph.D of Normandie Université prepared at your institution
- ▶ Your institution: U. Caen, ENSICAEN, U. Rouen, INSA Rouen, U. Le Havre
- ▶ Most rules common to all places. . . but not all of them

## Texts:

- ▶ Arrêté (Légifrance) du 25 mai 2016 modifié le 26 août 2022
- ▶ Règlement intérieur of MIIS
- ▶ Doctoral Charter
- ▶ Your own PhD contract + convention de formation doctorale

- ▶ Director: Jean-Luc Lamotte, Caen (Computer Science)
- ▶ Vice-director: Samia Ainouz, Rouen (Computer Science)
- ▶ Vice-director: Matthieu Alfaro, Rouen (Applied Maths)
- ▶ Vice-director: Quentin Griette, Le Havre (Applied Maths)
- ▶ Vice-director: John Guaschi, Caen (Pure Maths)

Secretaries; 'maisons du doctorat':

- ▶ Marie Legay, Caen: [marie.legay@unicaen.fr](mailto:marie.legay@unicaen.fr)
- ▶ Catherine Godard, Rouen (Univ.): [catherine.godard@univ-rouen.fr](mailto:catherine.godard@univ-rouen.fr) (a new person will be recruited soon)
- ▶ Caroline Meley, Rouen (INSA): [caroline.meley@insa-rouen.fr](mailto:caroline.meley@insa-rouen.fr)
- ▶ Alexane Kharmich, Le Havre: [alexane.kharmich@univ-lehavre.fr](mailto:alexane.kharmich@univ-lehavre.fr)

## General information and questions:

- ▶ One email address: [edmiis@normandie-univ.fr](mailto:edmiis@normandie-univ.fr)
  - ▶ Web site for MIIS: <https://ed-miis.normandie-univ.fr/>
  - ▶ Web sites of institutions
- 
- ▶ Feel free to ask questions!
  - ▶ Doctoral School is here to **help** you
  - ▶ Problems, doubts... tell us as soon as possible!
  - ▶ PhD = complex process, different for each one of you
  - ▶ There are no stupid questions

## Email:

- ▶ check your professional address ( $\neq$  gmail) daily

## SyGAL:

- ▶ information system for PhDs
- ▶ platform for administrative aspects of defence, reports, CSI, training. . .
- ▶ useful information and news

<https://sygal.normandie-univ.fr/>

## Council of the doctoral school:

- ▶ decides general rules
- ▶ decides on individual cases (grant allocation, 4th year...)
- ▶ 22 members: labs, external, and 4 students (plus 3 substitutes)

## Elected students (important contacts!):

- ▶ Maxime ALAARABIOU (LITIS), Boris Tchamiè GNAMAH (LMI), INSA Rouen
- ▶ Audrey CHAUDRON (LMRS), Aldo MOSCATELLI (LITIS), U. Rouen
- ▶ Hugo CHEMIN (LMNO), Raphaëlle LEMAIRE (GREYC), U. Caen
- ▶ Pierre LEFEBVRE (LMAH), U. Le Havre

Organisation and Contacts

**Main Steps**

Specific Processes

Problems

Final Remarks

## Month by month:

- ▶ no later than February 2025: form **follow-up committee**
- ▶ Spring 2025: individual interviews with doctoral school
- ▶ June 2025 and June 2026: committee (CSI) meeting, annual report
- ▶ beginning of 2027: **think about defence**, and start writing
- ▶ June 2027: committee (CSI) meeting, finalisation
- ▶ September 2027: **defence**

## Throughout the Ph.D:

- ▶ follow **training programmes**
- ▶ **teach**, **popularise** science, go to **industry**, etc. (if you wish)
- ▶ **travel**, **meet other researchers**
- ▶ **work**, **learn**, **read**, **write**, and **enjoy yourself!**

## Mandatory:

- ▶ follow-up committee ('*CSI*', June each year)
- ▶ training programme
- ▶ annual reports (June each year)
- ▶ if regional grant: Popularisation/outreach ('*CSTI*')
- ▶ if regional grant: final report (just before defence)

Organisation and Contacts

Main Steps

Specific Processes

Problems

Final Remarks

## Rôle of Follow-up Committee:

- ▶ give external point of view on work
- ▶ also on work conditions, personal projects, etc.
- ▶ on the student's side

## Composition:

- ▶ one 'local member' (same place) and one external to Normandy
- ▶ at least one member with habilitation
- ▶ not too close to supervisor
- ▶ typically: a member of the lab (other group) and a professor elsewhere
- ▶ **you** constitute: get help from (elected) students, colleagues. . .
- ▶ **you** choose: do not sign the form if you do not agree (and tell us)
- ▶ **to be formed no later than February**

# Committee (CSI) Meetings

Normandie Université

- ▶ Once a year, May or June (videoconferencing)
- ▶ Based on talk by student then discussion
- ▶ Part of discussion only with supervisor
- ▶ Part of discussion only with student
- ▶ Committee writes a short report and sends it to Doctoral School

Specific rôles of the Follow-up committee:

- ▶ be available for questions or discussion at any time
- ▶ detect problems, give advice
- ▶ not only on scientific work!
- ▶ gives opinion on registration for next year
- ▶ here to help you, not a jury

Your Ph.D is:

- ▶ your **research activities**, but also
- ▶ **training programme**: obtaining new skills for professional development.

**New skills**: scientific, professional, languages. . .

Aim of training programme: prepare the Ph.D **and** your professional future.

**2023 national figures in France**: ~ 15 000 Ph.D's defended, compared with ~ 1740 MCF (lecturer)/CNRS positions.

For **ED MIIS** (excluding mathematics): ~ 20% of Ph.D's in academia (university lecturer, researcher, research engineer. . .).

**Language/culture** in business/industry  $\neq$  at university: training courses can help.

## Conditions:

- ▶ follow **80 hours** over the three years, **mandatory for defence**
- ▶ at least 20 hours general, at least 20 hours specific (discipline-related)
- ▶ three mandatory courses in **1st year**:
  - ▶ **Research ethics** ('Éthique de la recherche')
  - ▶ **Scientific integrity** ('Intégrité scientifique')
  - ▶ **Combatting all forms of violence** ('Lutte contre toutes les formes de violence')
- ▶ general: Normandie Université, specific: MIIS

Also count as training (see the 'training' module in SYGAL):

- ▶ training outside of Normandie Université and MIIS
- ▶ Master's courses here or elsewhere
- ▶ training for teaching (but not teaching!)
- ▶ elective rôles (doctoral school council, university councils...)
- ▶ attending summer schools etc. (ask for attendance certificates)...
- ▶ preparing your professional development, entrepreneurship courses...

Annual, in June, for doctoral school to follow your progress:

- ▶ summarise work done
- ▶ training programmes followed
- ▶ popularisation/outreach activities (Le Dôme, Science Action. . . )
- ▶ conferences attended, papers written, etc.
- ▶ reuse for follow-up committee meetings
- ▶ esp. important for grants of Région Normandie (incl. popularisation)

Final:

- ▶ mandatory for grants of the Région Normandie
- ▶ also if PhD ends prematurely

Interesting for all, mandatory for grants of the Région:

- ▶ meet other students/researchers
- ▶ discussion of non-technical aspects of your work
- ▶ also useful for your CV!

Examples:

- ▶ participate in *Fête de la Science, Fêno* (with lab or department)
- ▶ many activities at *Le Dôme, l'Atrium*
- ▶ activities with secondary schools (go there, host them...)
- ▶ host school pupils (*stages de 3<sup>e</sup>*)
- ▶ teach at the *Université Inter-Âges*...

## What for?

- ▶ attending a conference, a summer school. . .
- ▶ presenting your work at a conference, at a seminar
- ▶ starting or continuing a collaboration
- ▶ using specific equipment in another university, a company. . .
- ▶ extremely important as a researcher

## Who pays?

- ▶ presenting your work: your lab (ask your supervisor)
- ▶ other short stays: your lab, but doctoral school can help:  
'aide au financement de missions', 50 / 200 / 400 / 800 €
- ▶ long stays (3+ weeks, abroad): MIIS encourages and supports
- ▶ not sure doctoral school will help? just ask!

## Teaching:

- ▶ possible up to 64 hours per year
- ▶ modalities: university/school (ask your supervisor)
- ▶ time-consuming but (very) recommended!

## Non-academic experience:

- ▶ for popularisation (32 hours)
- ▶ in a company (32 hours)
- ▶ 6-month or 12-month break for other experience ('césure')

# Outline

Normandie Université

Organisation and Contacts

Main Steps

Specific Processes

**Problems**

Final Remarks

Examples of (possible) problems or doubts:

- ▶ my supervisor is not present enough
- ▶ my research is not working
- ▶ I want to give up
- ▶ I'll never finish on time for my PhD defence
- ▶ I have health problems
- ▶ I feel isolated. . .

**Extreme and exceptional:** I'm not allowed to continue the 2nd, 3rd year. . .

The solution: tell someone as soon as possible!

To anyone you feel at ease with:

- ▶ CSI
- ▶ from the doctoral school: directors, **elected PhD students**, secretaries
- ▶ discussions will be kept **confidential**
- ▶ your supervisor, the director of your lab, other PhD students. . .

Also:

- ▶ health problems: request medical certificates from your doctor
- ▶ specific problems (gender-based/sexual violence. . .): specific contacts
- ▶ don't work in isolation
- ▶ take part in student associations, activities. . .
- ▶ always pay attention to deadlines and to your future

## Specific procedures at institutional level

Prevention and support contacts (victim or witness):

- ▶ Univ. Rouen: [cellule.harcelementsexuel@univ-rouen.fr](mailto:cellule.harcelementsexuel@univ-rouen.fr)
- ▶ Univ. Caen: [cellule-ecoute@unicaen.fr](mailto:cellule-ecoute@unicaen.fr)
- ▶ Univ. Le Havre: [cesam.ulhn@univ-lehavre.fr](mailto:cesam.ulhn@univ-lehavre.fr)
- ▶ INSA Rouen: [cellule.vss@insa-rouen.fr](mailto:cellule.vss@insa-rouen.fr)
- ▶ CNRS: [cnrs@france-victimes.fr](mailto:cnrs@france-victimes.fr)
- ▶ National phone no. (Violences Femmes Info): **3919** (7j/7, 24h/24)

Organisation and Contacts

Main Steps

Specific Processes

Problems

Final Remarks

## Time passes very quickly!

- ▶ thesis must be defended within 3 years
- ▶ 4th year is not normal and **requires a contract**
- ▶ 5th year is very exceptional (and requires a contract)
- ▶ anticipate your future: academia, industry, post-doc, teaching...?
- ▶ follow training programmes early enough
- ▶ teach early enough and not too much

The doctoral school is here to **help you!**

Share your problems with us, keep us informed, ask us your questions

## Calendar:

- ▶ end of February: form follow-up committee
- ▶ Spring: individual interviews with us
- ▶ May (?): Doctoral School Days, JDD
- ▶ June: annual report and committee meeting
- ▶ memo coming soon on the ED MIIS website

## More information:

- ▶ <https://ed-miis.normandie-univ.fr/>
- ▶ one email address: [edmiis@normandie-univ.fr](mailto:edmiis@normandie-univ.fr)
